

## EU Declaration of Conformity

According to the EC Low Voltage Directive 2006/95/EC

### Product: Flexible bus bars (MOFLEX)

The product is in accordance with the Directive 2006/95/EC of the European Parliament and of the Council of 12. December 2006 on the approximation of the laws of Member States relating to electrical equipment dedicated for use within certain voltage limits.

For the products description following harmonized standards were applied:

- DIN VDE 281 PVC insulated power cable according to the harmonization document HD 21.1.S3
- DIN VDE 0207-part IV Insulating and sheathing compounds for cables and flexible cords

The CE mark is printed on the bus bars (PVC). This statement applies solely to prescribed and professionally serviced installation and bus bars.
